Class descriptions September 4 – October 27, 2018 (8 weeks of classes) **(No classes Monday, October 8 – Thanksgiving Day)**

<p>Level 1-2-3 PowerMat (begins Saturday, October 6 @ 9:30am)</p>	<p>This slower-paced class is for those who are newer to STOTT PILATES® or who need a refresher of the basics! Still a great workout, this class will focus on establishing the five (5) STOTT principles while learning/reviewing the Essential Matwork exercises (Level 1 and 2) at an increased intensity.</p>
<p>Level 4/5 Intermediate Matwork</p>	<p>This class is for those that would like to increase their pilates matwork repertoire and would like to challenge core strength, flexibility, endurance and complete body strength at an even greater level!</p>
<p>Level 3+ – 6 PowerMat Classes</p>	<p>PowerMat Classes: Level 3+ Pure Mat is an excellent choice for people wanting a slower pace and more detail to the second half of the Essential exercises. After learning the Essential exercises, the PowerMat classes focus reviewing, practicing and increasing the pace of the Essential Matwork (Level 3), with preparation and strengthening for the Intermediate Matwork (Level 3/4), executing the Intermediate Repertoire with modifications (Level 4/5), full execution of the intense Intermediate exercises (Level 5/6). Challenge and intensity is added through the use of small equipment and props such as mini stability balls, flex bands, hand weights, stability balls, fitness circles, toning balls, body bars, BOSUs and foam rollers.</p>
<p>GROUP TRX® CLASSES. Registration is recommended</p>	<p>This cardio-strength combo TRX class will challenge the fittest of clients. The TRX® is a complete training system that can positively influence all types of athletic movement. Safely perform dozens of exercises that build power, strength, flexibility, balance, mobility, and prevent injuries, all at the intensity you choose. It is recommended participants go through an <u>Introduction to GROUP TRX®</u> to learn the basics such as how to lengthen and shorten the strap, the names and method of the exercises and how to increase intensity of each exercise to individualize the workout. The TRX Strap (stands for TOTAL-BODY RESISTANCE EXERCISE) is ALL CORE, ALL THE TIME, and is one of the most versatile, effective pieces of equipment that increases strength, flexibility and balance by using your own body weight... A total body workout!</p>
<p>Reformer classes <i>Beginner (Level 1) to Advanced (Level 5)</i></p>	<p>The reformer offers all the famous benefits of Pilates including overall strength, flexibility, coordination, and balance. Exercises can be done lying down, sitting, standing, pulling the straps, pushing the foot bar, perched on the foot bar, perched on the shoulder blocks, with additional equipment, upside down, sideways and all kinds of variations thereof. In other words, the reformer can train many parts and dynamics of the body in so many different ways with just one relatively sleek piece of equipment. The Reformer Basics focuses on introducing and practicing essential level exercises adding modifications for those who require less or more intensity. Level 3/4 Intermediate Reformer classes introduce and refine the extensive Intermediate repertoire a faster-pace using tempo variations and increased repetitions with familiar exercises. The focus is on endurance and higher intensity intervals. Level 4+ Reformer includes practicing and perfecting the Intermediate repertoire with a focus on flow, breathing changes and increased core strengthening to prepare for the ultimate challenge in Advanced Reformer (Level 5). Registration is required. Only four participants per class.</p>
